PROJECTS

siyaram courses

may'23-aug'23

- Certainly, here's a concise overview of the Course Website Project using Node.js, MySQL, Express, and EJS:
- Description: A dynamic learning platform developed with Node.js, MySQL, Express, and EJS.
- Features:
- User authentication and authorization for secure access.
- Course catalog showcasing various courses with dynamic content from MySQL.
- Enrollments, progress tracking, and personalized dashboards for users.
- Instructor portal for course management and student interaction.
- Discussion forums and real-time notifications for engagement.
- Responsive design ensures compatibility across devices.
- Our technology stack includes Node.js and Express for server-side logic, MySQL for data storage, EJS for dynamic HTML, CSS3 with Bootstrap for styling, and optional Socket.IO for real-time features.
- Benefits: Seamlessly blends backend and frontend technologies to create an interactive and user-focused educational experience.

Hostel Management System

may'24-aug'24

- Description: Direct communication for problems and questions to resolve from the rector and Hostel Management Authorities. Also, I'll mention that with having the opportunity for employment in the system.
- Anyone who is interested in admission to the Hostel and in Management can easily access the whole process directly on the Site.
- Technology Stack:Node.js, Express for server-side logic, MySQL for data storage, EJS for dynamic HTML, CSS3 with Bootstrap for styling, optional Socket.IO for real-time features.

my portfolio

aug'24-sep'24

- Description: Welcome to my portfolio website! As a full-stack developer, I am passionate about crafting innovative web solutions and bringing ideas to life. This website showcases my skills, experience, and the projects I've had the privilege to work on. Below is a list of some of my key projects, each with a brief description.
- Technology: HTML, CSS for styling, Javascript optional Socket.IO for real-time features.

ACHIEVEMENTS

- Certificates of Python, ReactJS,NodeJS, FullStack Development from Infosys Springboard
- Internships: TechnoHacks EduTech Official, CodSoft, Bharat Intern
